A Message From The President

The Sons of the American Revolution has been active in keeping public focus on the welfare of our nation since 1889. Florida members have played a major part in its activities from the first.

Our organization is history-conscious and our members, drawn from descendants of patriots who assisted in establishing American independence, are proud of their heritage. More important, however, is our effort toward preservation of the ideals which animated the founders of our Republic so that our descendants may be equally proud of this generation of their ancestors.

As this directory goes to press, plans are fully developed for the 71st Annual Congress of the National Society to be held in Clearwater, May 7-10, the second time the Florida Society has been host for this important annual meeting.

Appreciation is hereby expressed to Compatriot Thomas T. Dunn for his financial assistance with this publication, and to Compatriot Col. Herbert C. Roberts for his work and advice in its compilation. Especial gratitude is hereby extended to our State Secretary, Compatriot Ethan Allen, for the many hours of minute research and detail checking which he expended in an attempt to secure accuracy. Any criticism should be directed to the undersigned as he was in general charge and checked the final proofs.

April 1, 1961
